Irulu model x7 factory reset

Factory Hard Reset is the process used to wipe all the data and settings on the phone and revert it back to factory defaults. It comes in handy during the situations when your device is working too slowly, facing software related issues, bypass the forgotten Patten/PIN or Pass Code, etc. Here we have listed step by step instructions on how to Soft Reset and Factory Reset iRulu X7 7. Soft Reset is the process where there is no loss of data. The simple term for Soft Reset is Reboot. While on the other hand, Hard Reset deals with the loss of data as it wipes and cleans all the personal data and makes the device 100% clean. It is recommended to backup data before proceeding to Hard Reset iRulu X7 7. Hard Reset is performed at the time of selling the device to others or during software issues and slowness. Soft Reset is performed to clear the RAM, and to clear the temporary cache, this frees the device from the sluggishness and offers the device a quick performance boost.So, without any further ado, let's proceed to the instructions on how to Soft Reset and Factory Hard Reset iRulu X7 7. Also: iRulu eXpro X1 Factory Hard ResetHow to Hard Reset / Factory Reset iRulu X7 7Below are the methods using which you can factory reset iRulu X7 7. Power on your phone and unlock it.Open the Settings app. Tap on Backup & Reset and then Factory data reset.Now tap on RESET PHONE. If asked to enter the Passcode or PIN, enter the same and tap on ERASE EVERYTHING. Now, all the data will be wiped, and the device should reboot. Hard Reset iRulu X7 7 from Recovery ModeFirst of all, Power off your phone. Boot iRulu X7 7 into Recovery Mode.From the Recovery Mode menu, choose "wipe data/factory reset" using Volume buttons and press the Power button to confirm. In the next step, choose "Yes -- delete all user data" to confirm the operation.Now, the data and settings should be wiped. Once done, the Recovery Mode menu should appear. Choose "reboot system now".That's it! iRulu X7 7 Hard Reset has been performed. Note: After iRulu X7 7 Hard Reset you may be required to enter the previously used Google Account details while setting up the device. This is a Security feature added by Google starting from Android 5.0 Lollipop and this feature is called Factory Reset Protection (FRP). How to Soft Reset iRulu X7 7Firstly, press and hold the Power button.Choose Power Off from the menu that appears on the screen. Wait for a couple of seconds for the device to Power OFF.Now, hold down the Power key to turn the device back ON. Well done! iRulu X7 7 Soft Reset is performed. Previous Next Sort by votes How to rest it irulu tablet x71 I am assuming you are meaning "reset", as in "Hard Reset". If that is what you are seeking to do, you will find the instructions below. However please note, doing a "Hard Reset" will erase anything you placed on the device and restart it with only the original software/os/apps. Again, NOTE: Doing this will clear the data on your tablet, so it is suggested you not choose this option unless you have to, or aren't worried about losing anything on the device. Be sure you back up any data you want to keep, to a computer or cloud account, before doing the reset. To "Hard Reset" the tablet... 1. Make sure that the tablet is actually powered off. 2. Press the "Power" and the "Volume Up" buttons, together, until you see the start-up logo on the screen. 3. Once you can see the logo, release the buttons and allow the device to enter the "System Recovery Mode". 4. Next use "Volume Down" button to get to the "wipe data/factory reset" option When in recovery mode the "Volume Up" and "Volume Down" buttons are how to can navigate and highlight what option you need. 5. Once you have selected the "wipe data/factory reset", press the "Power" button to select that option. 6. On the following screen, repeatedly press the "Volume Down" button until the "Yes - delete all user data" option is what is selected. 7. Then press the "Power" button to hard reset the tablet.
